

PARTNER with
mobilize.NET

Your App. New. Again.

Improve your margins with industry's best modernization tools

Leading Modernization Solution

Mobilize.Net is the worldwide leader in software migration technology.

Our technology has been used by hundreds of thousands of developers and migrated thousands of projects.

Highlights

- ✓ Improve your margins through our efficient approach. IT modernization is our core business and we do it better, faster and more reliably than anyone else.
- ✓ Move your customers to .NET (C# or VB.NET) at a fraction of the cost of a manual rewrite.
- ✓ Enable your customers to take advantage of modern platforms by transforming code to HTML5. The Mobilize solution re-factors the code for web, mobile and cloud.
- ✓ Help untether your customers from old systems (like Windows XP) by migrating their legacy applications to Windows 10, Azure, AWS.

Microsoft's Partner for Migrations

Microsoft part owner.

Exclusive migration solution for MSDN.

Excellent Customer Satisfaction

Thousands of projects delivered.

On budget, on time, at quality.

99.5% positive satisfaction scores.

Billions of Lines of Code Migrated

20 years experience in app migration.

200K+ active developers.

Mobilize Partner Model

What is the value of this?

1. Improves your margin by up to 40%
2. Reduces your delivery time to exceed customer expectations.
3. Mitigates your risk with a tested, proven, predictable and automated modernization process.

How Mobilize Works with Partners

Our service model is ideal for cooperating with partners, either as a prime or sub-contractor.

When Mobilize takes on a modernization effort as part of a team, typical roles for our partners include:

- ✓ Client relationship management
- ✓ Project management
- ✓ Architecture development
- ✓ Requirements analysis
- ✓ Testing and deployment
- ✓ Implementation
- ✓ Change management

Our service partners can also take on software engineering roles as part of the transformation process.

The result is a win-win opportunity to deliver outstanding value to the client, with partners contributing based on their respective strengths
